Accuphase E 303 Integrated Amplifiers user reviews : 3.9 ...

It's eleven years since I reviewed the Accuphase E-213 for this magazine. That was then the entry-level integrated amplifier; the next model up the line, the E-308, was similar in rated power output but a noticeably more accomplished performer, and represented quite a significant jump in performance, back in the day.

Accuphase E-370 integrated amplifier | Hi-Fi+

For you get an idea of my sympathy for listening music just some hints: I began in the seventies with a Marantz-Receiver, one of these with the blue scales for tuning, I had than a Luxman L 410 amplifier, very famous in Germany in the 80's. Then came my first Accuphase, the E 211, and I learned things like dynamics, resolution and some more.

Accuphase E 308 Integrated Amplifiers user reviews : 4 out ...

Accuphase A-250. Pure Class A operation delivers 100 watts of quality power into 8 ohms; Two totally identical power amplifier units driven in parallel

Accuphase Amplifiers - Axiss Audio

The Accuphase E-303 is a heavy, full-featured integrated amplifier with MOSFET output devices, superb sound and robust construction. I listen to every piece of equipment I work on and, out of hundreds of integrated amps I've heard, a well-sorted E-303 like this is one of the sweetest sounding integrated amps you'll find.

ACCUPHASE E-470 integrated amplifier + Consummately involving performer, with a vice-like grip on bass and great resolution even when played soft; open-sounding with a big stage; always ready to convey the sense of excitement or tranquility in any given recording.

Accuphase E-470 integrated amplifier - one for a lifetime ...

Accuphase offers two amplifier technologies, Class A/B and Class A, with the Class A models positioned at the upper end of the product range in terms of performance and price. Until the recent introduction of the 50W E-800, the E-650 was the flagship integrated amplifier, offering a conservatively-rated 30W per channel into an 8Ω load ...

Accuphase E-650 integrated amplifier | Hi-Fi+

The Accuphase E-305 was manufactured from 1987-1991. I have owned the amp for about 2 years, Years before the E-305 I owned an E-303. In between I owned several other amps, tube, SE tube, PP tube, several vintage Sansui solid state amps, vintage Marantz, Luxman and DIY solid state amps I built following threads on DIYAudio.

The subject of this review is the Accuphase E-550 line-stage integrated amplifier. The phase-accurate Accuphase of Japan has been producing award-winning amplifiers since its founding in 1972, and that majestic power meter in gold chassis design has become the arresting visage of all Accuphase amplifiers shortly after.
